

Internal committee for application and check of the norms included in ruling protocol

As required at point 13, attachment 6, decree of Prime Minister dated April 26th, 2020 (protocol to set rules to contain and stop Covid-19 spreading in workplaces, agreed between Italian Government and Social Parties) we implemented an internal committee for the application and check of the norms included in the ruling protocol.

Committee composed by:

Daniele Guidi – Employer and RSPP

Alessandro Guidi – Employer

Claudio Bruno – Supply Chain Director and Responsible of norms application

Cristian Ragazzi – RLS

Enrica Pastore – Employer Representative

Committee functions:

- Internal check of the norms' application by the destined person (Claudio Bruno) to verify the correct use of personal protection devices and the respect of the rules, in order to contain COVID-19 spreading and preserve everybody's safety
- Check and care of common areas
- Check and distribution of personal protection devices
- Check and distribution of cleaning kits to different working stations
- Building access control of all employees
- Building access control of all visitors (transports, maintenance, etc.)
- Temperature check at entrance

We hereby inform Committee was implemented to check the respect of rules to avoid spreading of COVID-19 and preserve everybody's safety.

This is not be taken badly or "ravidly", because **it is intended to help and support in a situation where specific behaviors are difficult to maintain**, not for individual lack of attention but because distant from our everyday life (i.e. standing a mask...).

In this specific moment we do not need obstacles, heroes or delators. **It is very important to have a proper attitude in respect of everybody, starting from ourselves.**
